

*Profile of Mining Concession for Estimation of Reserved Price under Rule-197(A) of the
Punjab Mining Concession Rules, 2002*

Ord. Sand/Ghassar Ghazi Ghat/Chowk Qureshi, District Muzaffargarh

a) Geological Survey, Location of zone and assessment of mineral in the zone:

This newly proposed zone is located on main Muzaffargarh – D.G.Khan Road near Basira Village covering sand dunes along the road in this area and fall on topo sheet No.39, N/4 of Survey of Pakistan. Geologically these areas were, in the historic time, part of Indus river as a result of which a number of sand dunes covering thousands acres are available. .

b) Quality of mineral in the zone:

This zone contains ghassar deposits in the form of sand dunes which can be used for filling purpose for under construction Muzaffargarh – D.G.Khan Road.

c) Availability of access road to the zone:

The main Muzaffargarh – D.G.Khan Road passes through this zone & sand dunes are located on both sides of road.

d) Accessibility to the market and consumption of the mineral in the zone:

The objective for creation of this zone is supply of filling material required for under construction Muzaffargarh – D.G.Khan Road.

e) Average excavated quantity of mineral from the zone during last five years:

This is a newly created zone.

f) Previous bidding history of the zone:

It is a newly created zone.

g) Future potential for excavation from the zone:

Future potential of this zone is use of ghassar as filling material in the under construction Muzaffargarh-DG Khan road.

h) Any unique factor at site to consider the reserved price:

Nil
